

Snap & Share Terms & Conditions

Snapping and sharing your fuel packaging is a great way to tell people about your new tariff. With all offers, there are a few rules (or Terms and Conditions, but let's not get too formal) so everyone plays fair. Here they are...

Eligibility

Fuel account holders should...

- Snap a picture of the fuel packaging
- Upload to your Instagram account
- Tag Fuel into the image
- Leave posted for a minimum of 15 days (If the image is removed prior to this, the Snap and Share incentive will not be applied)

Fuel will get a notification and apply the 1GB Data to your next months billing cycle to use free of charge. You have to be an active Fuel Customer to qualify for the above.

Refer a Friend Terms & Conditions

Referring a friend is a great way to tell others about fuel. With all offers, there are a few rules (or Terms and Conditions, but let's not get too formal) so everyone plays fair. Here they are...

Eligibility

Fuel account holders can...

Refer multiple friends – there's no limit. Referred friends must be completely new to Fuel. They can't have placed an order or have been gifted Fuel services at any time.

Only have one fuel account (which must have a problem-free history) and can't refer themselves.

Referred friends can...

Join fuel as a referred friend if they've never made (or paid) for an order. They can start referring their own friends as soon as they have a fuel account.

Fuel Off Terms & Conditions

We are always looking to protect our customers, and we have noticed a huge shift in other networks targeting customers on social media channels. So fuel wanted to do something about it and reward you in the process.

Eligibility

Fuel account holders should...

- Wait for one of the networks to target you with a social ad
- Comment F*** Off on the ad
- Screenshot and send us proof as a DM
- Leave posted for a minimum of 15 days (if the comment is removed prior to this, the F*** Off incentive will not be applied)

Fuel will get a notification and apply the 1GB Data to your next months billing cycle to use free of charge. You have to be an active Fuel Customer to qualify for the above.
